**STUDENT**  
**PUSE Task Number**  
**A**  
**505**

**Description of the task:**

Work in pairs: both of you should construct a shape of 3-4 elements that your partner cannot see. Then show it to each other for a few seconds and cover them. After that draw the shape your partner constructed for you from memory. Check each other's solution if you are ready. If you succeeded, continue the game by constructing the given shapes using the elements of your own sets.

How many times did you have to try in order to draw the shape correctly? \_\_\_\_\_

How many times did you have to try in order to construct the shape correctly? \_\_\_\_\_

**Solution(s) of the task:**

**Remarks / Self-evaluation:**
